La Center School District Evaluation Process
The Five-Step Continuous Learning Cycle

Cycle Step 1: Teacher Self-assessment

Using the Current OSPI Approved Danielson Instructional Framework Rubric and the evaluation worksheet, each teacher will self-assess and determine their own performance rating based on evidences of past performance. First year teachers will complete this process following their initial 90-day performance evaluation.

Cycle Step 2: Self-assessment Review and Development of an Annual Learning Plan

Each teacher and their evaluator will meet within the first forty-five calendar days of the school year (or initial formal observation for new teachers) to review the self-assessment and to develop a formal written learning plan for the year. For those who are using a Leadership Learning Plan, the employee shall be placed on a Guided Pathway and a new learning plan will be developed.

Teachers who were rated less than Proficient in one or more criterions will be placed on a Guided Pathway and a specific learning plan will be written to address each of these criteria. Final approval of Guided Learning Plans rests solely with the evaluator. At any time during the year if performance is determined to be unsatisfactory in any area (criterion or sub-criterion) of performance, the employee will be placed on a Guided Pathway and a new learning plan will be developed.

Teachers who are rated Proficient or higher for all criterions will develop his or her own Leadership Learning Plan with evaluator review. The exception to this is if any sub-criterion has a rating of Unsatisfactory, the employee shall be placed on a Guided Pathway. The final approval of all Leadership Learning Plans rests solely with the teacher.

Cycle Step 3: Implement Plan and Collect Evidence of Learning

All teachers on a Leadership Pathway will initiate his or her evidence collection strategy with the support of their evaluator. Those who have a Guided Learning Plan will work in concert with their evaluator and get direct assistance in collecting evidence of progress relative to their specific learning plan objectives.

Teachers using a Guided Pathway must be observed by their evaluator as part of the evidence collection process for a minimum of 90 total minutes throughout the year over at least three (3) different times, one (1) of which must be a formal observation. All teachers using a Leadership Pathway must be observed a minimum of sixty (60) total minutes throughout the year during at least three (3) different times.

Cycle Step 4: Mid-year Learning Plan Review with Evaluator

On or before February 15th of each school year, every teacher will meet with their evaluator to review their learning plan (Guided or Leadership). For those who are on a Guided Pathway Learning Plan, a new rating using the district’s evaluation worksheet must be generated using the evidence collected throughout the first half of the school year. Adjustments, if necessary, will be made to the Guided Learning Plan as determined by the evaluator.

Cycle Step 5: End-of-Cycle and Summative Evaluation Reports

All teachers who are using a Guided Learning Plan will have their summative evaluation completed on or before May 1st of each school year. All teachers who are on a Leadership Learning Plan must have their summative evaluations completed on or before May 15th of each school year.
