

## **Classroom Cleaning Protocol**

**Cleaning:** The preferred method for cleaning desks, tables, and surfaces should be cleaning with warm water and soap. Followed by rinsing with warm water. Students can help with this process. If wipes are used for cleaning they must be fragrance free baby wipes.

**Sanitizing:** Door knobs, sink handles, and light switches can be cleaned with Sani-cloths when students are not present. Teachers or adults should use these. Use with gloves, or wash hands with soap and water after use.

**Disinfecting:** Will be carried out by custodial staff regularly, and as needed for illnesses in classrooms. They have approved cleaners that can be used.
