User Interface (UI) overview

Home screen

The Home (default) screen is displayed when the phone is in the idle state. The Home screen displays status indicators, user directory number, avatar, last dialed number, time, date and list of programmable softkeys.

Call screen

When on an active call, caller's avatar, name, number and call duration timer is displayed. The context-sensitive softkeys are updated with applicable call handling features.

Applications

Contacts

The Contacts application stores personal phone book and directory. The Mitel MiVoice 6940 IP Phone supports a localized Personal directory, interoperability with LDAP (corporate) directories, and enhanced MobileLink functionality, which allows you to sync your mobile contacts with your 6940 IP Phone.

Making a call using the Contacts application

- 1. Press the key to access the Contacts application.
- Tap the respective contacts folder and scroll through the contacts by swiping up and down on the list

or

Tap the search field, enter characters using the on-screen keyboard, and tap the blue **Enter** key to use the search feature.

When the applicable contact is highlighted, tap the **Dial** softkey to place a call using the entry's default phone number

or

To place a call to a different phone number defined for the entry (for example, a mobile number), tap the > key to access the contact card screen, and then tap the phone number to dial.

Call History

The Call History application displays a list of your missed, outgoing and received calls as well as My Mobile and Missed calls. You can view, delete and dial out to call history entries as well as copy entries to the Contacts application.

Using the Call History application

- 1. Press the key to access the Call History application.
- Tap the respective contacts folder and scroll through the entries by swiping up and down on the list. To view additional call details, tap the key when the entry is highlighted.
- Tap the Dial softkey to place a call to the respective entry or Tap the Add Contact softkey to copy the entry to your Contacts application or

Tap the **Delete** softkey to delete the entry from your Call History.

Voicemail

When voicemail functionality is enabled, the MWI LED on the Mitel MiVoice 6940 flashes red and the (Voicemail) icon displays on the status bar indicating that voicemail messages are available. You can access your voicemail service by pressing the Voicemail key

Visual voicemail

Visual voicemail enables access to voicemail system and displays a count of all, new

and recorded voicemail messages.

Note: Voicemail and visual voicemail functionality must be configured by your System Administrator.

Enabling visual voicemail

- 1. Press the (Settings) key on the phone to access the Settings menu.
- 2. Tap Voicemail.
- 3. Tap the **key opens Voicemail App** checkbox to select the checkbox.
- 4. Tap **Save**.

Note: For security reasons, the password can be enabled only from the user login screen.

Note: For additional visual voicemail functions, refer to the Mitel MiVoice 6940 IP Phone User Guide.

Advanced call handling

The Mitel MiVoice 6940 IP Phone provides a method for transferring calls through the **Transfer** softkey.

Transferring a call

- 1. Ensure you are on active call with the party you wish to transfer.
- 2. Tap the **Transfer** softkey. The active call is placed on hold.
- 3. Enter the transfer recipient's number and tap **Transfer**.

Mitel's Power Over Ethernet (PoE) Powered Device (PD) products are covered by one or more of the U.S. patents (and any foreign patent counterparts thereto) identified at Mitel's website: www.mitel.com/patents. For more information on the PD patents that are licensed please refer to www.cmspalents.com

Creating a multi-party conference call

- Ensure you are on active call with one of the parties with whom you wish to create a conference.
- Tap the Add User softkey. The active call is placed on hold.
- 3. Enter the conference target's number.
- Wait for an answer, consult, and then tap the Join Calls softkey to create the threeway conference call.
- Repeat steps 2 to 4 to add an additional party (maximum of seven participants) to the conference.

Speed Call programmable key configuration

A **Speed Call** key allows you to dial a specified number with one key press. **Speed Call** keys can be useful as they can be programmed to dial directly to an internal or external number or quickly access features that use feature access codes. You can also transfer calls to or create conference calls using your **Speed Call** keys in place of dialing out manually.

Note: Configuring a programmable key using the press-and-hold method is only available if enabled by your System Administrator.

Programming a Speed Call key

- Press and hold the applicable programmable key (for 0-5 seconds) until the Label Name field is displayed.
- In the Label Name field, enter a label to apply to the key using the on-screen keyboard.
- 3. Tap the **Number** field and enter a number using the dialpad keys.
- 4. (Optional) Tap the **Private** check box to make the key a Private Speed Call key. When a Private Speed Call key is tapped, the call is considered private and caller ID information is not displayed in the phone's call history.
- 5. Tap the **Save** softkey to save the information to the key you selected.

Note: Other features such as Phone Lock, Call Forward Always, Do Not Disturb, Mobile Line, and Account Code keys can be programmed using the press-and-hold method (if enabled by your System Administrator). For more information, refer to the *Mitel MiVoice 6940 IP Phone User Guide*.

MobileLink feature

The Mitel MiVoice 6940 IP Phone supports MobileLink, a feature that provides seamless mobile integration using Bluetooth wireless technology. MobileLink highlights include the ability to:

- Sync your mobile phone's contact list and call history with your 6940 IP Phone.
- Answer a mobile phone call using your 6940 IP Phone.
- Move active calls between the 6940 IP Phone and your mobile phone.

The MobileLink feature is supported only on iOS and Android mobile devices.

Note: MobileLink features are available only if your Administrator has enabled them. Contact your Administrator for details on how to enable MobileLink functionality on your phone.

Pairing a mobile phone using Bluetooth

- 1. Press the key and tap the **Bluetooth** icon.
- Swipe the ______ toggle switch to the right to enable Bluetooth functionality.
 Ensure your mobile phone is discoverable as the Mitel MiVoice 6940 IP Phone automatically scans for available Bluetooth devices.

Note: For information on how to make your mobile phone Bluetooth discoverable, refer to the documentation provided with your respective mobile phone.

- When your mobile phone has been discovered, tap the respective entry on the list of available devices.
 A Bluetooth pairing request displays on both the Mitel MiVoice 6940 IP Phone and your mobile device.
- 4. Ensure the pairing code matches on both devices and tap Yes on the Mitel MiVoice 6940 IP Phone and acknowledge the pairing request on your mobile phone.

The Mitel MiVoice 6940 IP Phone attempts to pair the mobile phone and if successful, automatically attempts to connect to the mobile phone.

Note: If pairing or connecting fails, a failed error message displays on screen. Tap **Retry** to attempt to pair or connect again, or **Cancel** to cancel the attempt.

Tap the **OK** button to acknowledge the successful connection.
 The connected mobile phone is added to the list of **Paired Devices** and is ready to use.

Syncing mobile contacts

The Mitel MiVoice 6940 IP Phone automatically syncs your mobile contacts to the

Contacts application upon pairing and connection.

To manually update your mobile contacts:

- key to access the Contacts application. 1. Press the
- 2. Tap the **Mobile** contacts folder.
- 3. Tap the **Update** softkey. The Mitel MiVoice 6940 IP Phone attempts to update and synchronize your mobile contacts.

Note: If the update fails, a failed to retrieve contacts message displays on screen. Tap Retry to attempt to update again, or **Cancel** to cancel the attempt.

Answering an incoming mobile call using your Mitel MiVoice 6940 IP **Phone**

When your mobile phone is paired and connected to your Mitel MiVoice 6940 IP Phone, incoming calls on your mobile phone will be indicated on your 6940 IP Phone as well.

Note: A Mobile Line key must be configured to answer an incoming mobile call using your Mitel MiVoice 6940 IP phone. For more information, refer to the Mitel MiVoice 6940 IP Phone User Guide.

Lift the handset or press the key, blinking Bluetooth Line key, or Answer softkey for handsfree operation.

Moving the audio of an active mobile call between your mobile phone and Mitel MiVoice 6940 IP Phone

Tap the **Push** call softkey to push the mobile call's audio from your Mitel MiVoice 6940

Powering connections

IP Phone to your mobile phone

or

Tap the \(\) **Mobile Line** key to pull the mobile call's audio from your mobile phone to the Mitel MiVoice 6940 IP Phone.

Syncing mobile call history

The Mitel MiVoice 6940 IP Phone automatically syncs your mobile call history to the Call History application upon pairing and connection. The My Mobile folder displays your mobile phone call history (missed, outgoing and received calls) with icons. The Missed folder displays only your mobile phone missed calls without icons.

To manually update your mobile call history:

- 1. Press the (Call History) key.
- 2. Tap the My Mobile or MIssed folder.
- 3. Tap the **Update** softkey. The Mitel MiVoice 6940 IP Phone attempts to update and synchronize your mobile call history.

Note: If the update fails, a failed to retrieve contacts message displays on screen. Tap Retry to attempt to update again, or Cancel to cancel the attempt.

Note: For other functions, such as viewing mobile call history details, dialing a mobile call history entry, adding a mobile call history entry to Contacts, and deleting mobile call history, refer to the *Mitel MiVoice* 6940 IP Phone User Guide.
